Wait until 15-20 minutes until the Virtual Machines are deployed. And Now you have to access all the virtual machines from Deployment Tab instead of requesting it everytime.

Remember: Every time you want access to any machine, do not repeat above steps, instead directly click on deployments and follow the following steps.

The screenshot shows the 'CECH Sandbox' interface with the 'Deployments' tab selected. The page displays a list of four deployments. The first deployment, 'Cleveland State Ethical Hacking kumar fixed-98682749', is highlighted with a black border and shows a progress bar at 14%. The other three deployments are 'OCR Training Environment -03614640', 'Cleveland State Ethical Hacking kumar fixed-74838231', and 'Cleveland State Ethical Hacking Kumar-75734100'. Each deployment entry includes details such as the environment name, owner, business group, number of resources, creation time, expiration status, and a list of resources with their status (On/Off). A search bar and a sort dropdown are located at the top of the deployment list.
